Patient Instructions to Create an Online Health History

Welcome to San Marcos Surgery Center. We're very pleased that you and your physician have chosen us to deliver your care. Our center requests that you enter your medical history online with One Medical Passport **as soon as your procedure has been scheduled**. Once you create a Medical Passport, our Pre-Anesthesia Testing nurse will review the information you entered and help prepare you for your procedure.

About One Medical Passport

One Medical Passport is a pre-admission system to help you easily enter your information online. For most patients, filling out the medical history questionnaire takes less than 30 minutes. Please answer questions accurately, and be assured that all of your information is kept confidential and will be thoroughly reviewed by your healthcare team. At any time after selecting a username and password, you can stop and log in later to complete the unfinished portion at your convenience.
